E-mail Message

To: Kaliski Appliances <contact@kaliskiappliances.com>
From: Erica Simpson <e_simpson@bellmail.net>
Date: September 13
Subject: K780 washing machine

To Whom It May Concern:

I purchased a Kaliski washing machine, model K780, a few months ago, and it was running fine at first. However, for the past few days, when I opened the detergent drawer after a wash cycle, I could see that there was still a layer of soap left behind. This told me that the detergent was not dispensing properly. Indeed, my clothing is not coming out as clean as it should be. It seemed to be the worst when I set the machine to initiate a hot wash, which leads me to believe there is a problem with the programming of the appliance.

After reading the user manual, I cleaned the drawer thoroughly and checked for blockages. I also ran several rinse cycles in an effort to resolve the issue. Unfortunately, neither of these strategies worked. It is imperative that I have this problem dealt with as soon as possible. I have some relatives coming to my home next week, and being without a washing machine is a major inconvenience for me. Please let me know what can be done about this.

Sincerely,

Erica Simpson

Questions 168-171 refer to the following Web page.

www.southsails.com/discussion_board

I have been a subscriber to *South Sails* magazine for about three years, and it has been a great resource for me. I'm wondering if anyone living in the Bevan Bay area can help me decide on the best marina for my 25-foot sailboat. — [1] —. At first, I was considering Jasper Cove, but I am trying to figure out whether the negative aspects outweigh the positive ones. Because I signed up to receive *South Sails* for twelve months, I can get 10% off fees at Jasper Cove, but it doesn't seem to offer as many amenities as other sites. In addition, the on-site parking there is limited, which is a problem in the peak season. Windward Marina has a number of partners in its network. — [2] —. I do plan to take some multi-day trips this season, so it may be worth the higher fees. I also know that Duneview has on-site engineers who could fix any technical problems with my boat, but since I often carry out those kinds of tasks myself, that service isn't a benefit to me. — [3] —. However, their security system is impressive, and I do like the thought of my boat being safe and secure at all times. There are many factors to consider, so any insights you all could share would be greatly appreciated. — [4] —.

— Leo Magnus

168. Why did Mr. Magnus write the post?

(A) To suggest an article for a magazine
(B) To advertise a used boat for sale
(C) To recommend a marina for docking
(D) To request advice from local residents

(A) It charges its customers for on-site parking.
(B) It offers discounts to one-year magazine subscribers.

170. What is indicated about Mr. Magnus?

(A) He has experience in boat repairs.
(B) He has had his sailboat for three years.
(C) He got a security upgrade for his boat.

To:	Undisclosed Recipients
From:	Brenda Pearson <bpearson@quinterolabs.com>
Date:	April 19
Subject:	Safety Survey

As you were absent from this morning's feedback session on improving safety in our laboratory, we would greatly appreciate your input through a brief online survey that has been set up for anyone who was not in attendance. Your insights are crucial for us to ensure we don't overlook any important aspects.

Please access the survey using the following link: www.q2qsurveys.com/QL705. When prompted for a password, use your unique 5-digit employee number followed by a hashtag (e.g. 12345#). Please note that the link will become inactive at precisely 4 P.M. on Friday, so make this task a priority.

A few of our senior employees will compile the responses, and your feedback will be instrumental in shaping our safety policies and procedures. Many businesses in our field rely heavily on training sessions to improve safety. We hope this will not be necessary if we use effective policy changes and necessary equipment upgrades. We believe that gathering detailed feedback from our employees will help us achieve this goal.

Your participation is essential for a safer work environment for everyone. Thank you in advance for taking the time to share your thoughts.

Sincerely,

Brenda Pearson
Site Supervisor, Quintero Labs

www.q2qsurveys.com/QL705

In the box below, please share any concerns you may have regarding safety at Quintero Labs and make suggestions for improvements. We appreciate your assistance.

Date: April 21 **Name:** Jeffrey Mendoza **Employee Number:** 05891

The coat rack adjacent to the emergency exit is always congested with coats, and people frequently abandon bags and other personal items on the floor around it. This partially obstructs the emergency exit, making it a substantial fire hazard. If we had a secure and organized place to put our belongings, this issue would be eliminated. It is worth noting that I am not the only one in my department to feel this way; it is a regular topic of conversation when we meet at the water cooler in the hallway. I believe that such an improvement would not only enhance safety but also elevate employee morale.

Quintero Labs Safety Improvement Plan
Prepared by Anne Friedmann

In an effort to improve safety protocols at Quintero Labs, the following initiatives will be implemented over the coming months.

1. Advanced fume hood systems will be installed at all workstations to ventilate hazardous fumes and vapors away from employees.

2. Purpose-built storage lockers will be created in room 103, and all personal items, including coats and bags, should be stored there. This will help us to keep all entrances clear of obstacles.

3. A new labeling system will be implemented to prevent the misuse of materials and to remind employees about proper handling procedures.

4. An eye wash station will be added to the main laboratory to allow for the immediate rinsing of chemicals in the case of contamination.

186. In the e-mail, what is suggested about the survey?

(A) It was also sent to employees by text.
(B) It is conducted on an annual basis.
(C) It has a strict submission deadline.
(D) It is protected by the password 12345#.

187. According to Ms. Pearson, what does the company hope to avoid?

(A) Having a high employee turnover
(B) Holding many training sessions
(C) Recording inaccurate information
(D) Spending too much on equipment

188. What is suggested about Mr. Mendoza?

(A) He had difficulty accessing a survey form.
(B) He is a senior employee at Quintero Labs.
(C) He was not present at a feedback session on April 19.

Dear Ms. Hudson,

I wanted to express how impressed I was by the recent Stratford Drama Society show. All the young cast members were very well-suited for their roles and performed them superbly, and your theatrical direction of the play was absolutely flawless. Because it was such a long play, I'm glad there was an intermission, as it gave me an opportunity to think about the narrative that had unfolded so far and discuss it with my companions. The storyline of the play was highly engaging and conveyed with clarity and emotion. I've always been interested in mysteries, and this show has inspired me to try my hand at writing my own mystery story. I think it will be a fulfilling way to make use of my spare time, and it is something I may not have considered had I not been so impressed with your play. I look forward to enjoying more of your shows this year.

All the best,

Holly Tonkin

Discover the Doughnuts!

By Mark Serrano

Sam's Doughnuts, celebrating its fifth anniversary, has been giving tours of its kitchen for the past three months now. This family-friendly experience allows visitors to see the magic behind their delicious creations, such as Chocolate Glaze and Berry Burst. Participants can watch every step in the doughnut-making process, from mixing the dough and cutting out the shapes to frying and passing the delicious rings of dough under a curtain of sweet glaze. Participants are also given free samples of the Original Sweet Glaze flavor at the end of the tour! When Sam's Doughnuts first opened for business, it sold only Original Sweet Glaze doughnuts, and they proved to be a huge hit, helping the establishment to build an excellent reputation by word of mouth.

There's much to enjoy at Sam's Doughnuts. On Tuesdays, unlimited coffee refills are served, and senior citizens receive discounts on Thursdays. And customers shouldn't miss out on trying Caramel Crunch, which has been outselling all other varieties by two to one since being introduced last month. Visit the business's Web site for further tour information.

I recently visited Sam's Doughnuts and took their kitchen tour, which was fantastic. Our guide, the assistant manager of the shop, explained the entire doughnut-making process and answered all of our questions. After the tour, I relaxed in the dining area, which was packed with very satisfied customers of all ages. One of my favorite things about my visit was that I could ask a server for as many refills of coffee as I liked at no extra charge. For those who don't go on the tour, there is still a glass wall allowing a view of the doughnuts being fried. However, I wish there were tables right by the glass wall so I could sit and watch the process more comfortably instead of having to stand to see. Overall, it was a wonderful experience, and I highly recommend visiting for both the delicious doughnuts and the engaging kitchen tour.

Dear Ms. Bancroft,

Thank you for your review of Sam's Doughnuts. We're pleased that you enjoyed the tour, and we hope you will visit again soon. Our head chef, Otis Frasier, is working with owner Sam Murphy to make some new recipes, and these will be introduced to our menu before the end of this year. Some of these are based on a survey conducted by our assistant manager, Melinda Laroche. As for your suggestion regarding our glass wall, we actually left that area free from tables purposely so that more people would be able to see the doughnut-making process during busy periods. Nevertheless, we appreciate your feedback.

Warmest regards,

Albert Keaton

PART 3

Questions 32-34 refer to the following conversation.

W: Good afternoon. Thanks for booking a tour at this office complex.
M: I'm excited to check it out. I've been wanting to work in this area because of all the parks and beautiful trails nearby. I've heard so many good things about this location—being surrounded by nature is definitely a plus. This complex is newly built, right?
W: Yep. Actually, our first tenants started moving in just yesterday. Before I show you around some units, can you please put on this visitor badge first? It's just a quick security measure we have in place for all our tours.
M: Oh, yeah, sure.

Questions 35-37 refer to the following conversation.

W: Ryan, our morning catch was quite fresh today! I noticed you're assigned to some salmon and seabass deliveries in the Salinas District. Why haven't you headed out yet?
M: I was planning to leave in about two hours or so. Did a restaurant in the Salinas District request an early delivery for their fish?
W: No, but I'm worried about traffic on Interstate 101. It stays pretty congested even after rush hour, so it's always best to add at least an hour to your travel time.
M: Thanks for the advice. I'll make sure to check the traffic reports on local news websites, too.

Questions 38-40 refer to the following conversation.

M: Hey Alice, I just received an e-mail from Gunther's, a luxury food brand. They want to use the organic vegetables we produce in their newest line of gourmet sauces.
W: Hmm... That might be tough. Our farm is still quite small, and most of our harvest already goes to a different business. I'm afraid we wouldn't be able to supply enough produce to another buyer, nor do we have the capacity to scale up right now.
M: But our current contract with that client is expiring soon. Plus, we don't know for certain if they'll renew with us. How about discussing Gunther's proposal with the general director, Mr. Rodriguez?
W: Good idea. Can you arrange a meeting with him?

Questions 41-43 refer to the following conversation.

W: Good afternoon, Mr. Feldman. I'm here to look at the office space you want us to redesign for you. Did you prepare an outline of the design features you have in mind?
M: Yes, here it is. So, how much do you expect the full project to cost? I was just wondering if our budget will be large enough.
W: Well, you told me your budget is approximately $20,000, and I'm certain we can complete the work for less than that. First, I'd like to check the flooring in your main office.
M: Sure. We just replaced our old ceramic tiles last month, but we'd prefer a wooden surface.

Questions 44-46 refer to the following conversation with three speakers.

M1: Hey, Ishita. Hi, Felix.
W: Hello, Sebastian. We were just mentioning our thoughts about our firm's new remote work policy. It's always difficult to find a good workstation whenever I come into the office.
M2: Same, I don't like how unpredictable it is each time. It'd be so much better if we could just sign up for a workstation in advance. Don't you agree?
M1: Yeah, that's a good idea. Let's go to our chief supervisor and ask her about this.
M2: Want to go now? I think she's in her office.
W: Oh, I need to finish a report by 5 o'clock, so you guys go ahead.

Questions 47-49 refer to the following conversation.

W: As you can see, this is an original watercolor by the famous Spanish painter, Armando Salinas. The painting itself is still in perfect condition, but the frame is badly cracked. I'm wondering whether you can fix it.
M: Well, I usually only work on contemporary artworks and frames, and the picture you have here is very old. In order to complete the project for you, I'll need to speak with our art restoration manager, Mr. Rickard.
W: That's fine. My only concern is that it may cost too much to have the work done. Unfortunately, I'm on a limited budget.

Questions 50-52 refer to the following conversation.

W: I'm so glad that you are here. As you can see, my key got stuck in the lock and snapped. Now I'm unable to get into my house.
M: Sorry about the delay in getting here. I followed the GPS to your address, but it took me to a completely different house.
W: No problem! I'm just glad you could help me at short notice! I hope you'll be able to open my door and repair the lock.
M: It'll be an easy job. Just give me a moment, because my tools are still in my van. I'll be right back.

Questions 53-55 refer to the following conversation.

M: Hi, Tiffany. We still haven't sent invitations to some of the guests we want to attend our fundraiser. Here's a list of their names. Could you follow up with them?
W: No problem. Oh, I see Jason Ford's name is on here. I'm certain I already e-mailed an invitation to him.
M: Well, we had his old address.
W: Oh, I see. I'd better send one to this one then.
M: Thanks. But first, I need you to call the venue and confirm that we've sent the booking payment.

Questions 56-58 refer to the following conversation with three speakers.

W1: Hello, Paul. Like I said during our phone call, I recently founded a jewelry company with my colleague, and we could really use your marketing agency's help in promoting our new range of bracelets. You suggested utilizing social media, right?
M: I did. Despite what most people assume, television is no longer effective in advertising. Nowadays, the Internet is where brands are really building their reputation.
W2: I think you recommended that we work with an online influencer, correct?
M: Yes, Suni Hong. Suni's big on stylish accessories and gets lots of engagement from thousands of people every day. She has a very strong following in the fashion and beauty world.

Questions 59-61 refer to the following conversation.

W: Trevor, thanks for helping me organize Mr. Seaton's 60th birthday celebration.
M: It's my pleasure! He's been a big help to me here at the factory. He showed me how to operate all the assembly line machines when I first started working here.
W: Yes, he's a valuable and experienced member of our team, so we need to hold a special party for him.
M: If we are going to hire a caterer, I suggest City Gourmet. I tried their food at a wedding, and it was amazing.
W: We will organize some sort of food, but let's plan other details first and decide on the food later.
M: Well, they're in high demand.
W: Okay, I'll give them a call now.

Questions 62-64 refer to the following conversation and billing statement.

M: Hello, Ms. Cortez. I'm aware that you want to discuss one of the items on your business account statement.
W: That's correct. I'm confused about the amount for April 9. I don't understand why there's a withdrawal on that day.
M: Let me check the details for that. So... it seems like starting this year, your account has had a monthly maintenance fee, which fluctuates based on your account balance.
W: Oh, I didn't even know I was paying that all this time! Can I have a list of all the monthly fees I've paid so far?
M: Sure. All these transactions on this paper here are the service charges.

Questions 65-67 refer to the following conversation and schedule.

W: Hello. Is this the information desk? I need some assistance.
M: Yes, and I'd be happy to help. Are you taking a ferry from here today?
W: That's right. I bought my ticket from your Web site for the boat that leaves at 10:15, but I have no idea where to go.
M: Oh, you need to wait at Boarding Area D. It's right at the end of the dock.
W: Thanks! Oh, and I'd like to buy some snacks and a drink for my journey. Is there a place in this building?
M: Yes. Just go up the stairs over there and you'll see it.

Questions 68-70 refer to the following conversation and map.

M: Bonnie, how did it go with the sponsorships for the folk concert?
W: I was able to finalize the deals. The contract should come through soon.
M: Great, thanks for handling all that.
W: You're welcome. I hope our turnout is as big as last year.
M: Yeah, almost 3,000 tickets sold was amazing, but we did have two popular bands. I'm worried we'll sell less this year.
W: Well, Val Ferrera is quite famous these days. Plus, she's doing a photo session after the concert. Speaking of which, look at this map. Where should the table for that go?
M: Hmm... the gift shop has some space around it. Let's set it up by there.

PART 4

Questions 71-73 refer to the following talk.

I'd like to start this meeting by saying it's a pleasure to be hired as the new head of accounting here at Alto Pharmaceuticals. I've met most of you already, and I'm confident that we have a great team. I'll be making a few changes to our work processes over the coming week, and the biggest one is the introduction of new payroll software called CheckPay. This will be an improvement on the current system and will allow us to calculate wages and overtime pay more efficiently. I have e-mailed a user manual to each of you, and I would like you to read through that by Friday.

Questions 74-76 refer to the following tour information.

Good morning, and welcome to the vibrant city of Amsterdam! My name is Hans, and I will be your guide on this immersive cycling tour through one of Europe's most historically rich cities. As a lifelong resident of Amsterdam, I am eager to share with you the profound historical events that have shaped this city, as well as introduce you to its magnificent blend of classical and modern architecture. Along the way, we will stop at several key landmarks where you may wish to purchase local snacks or souvenirs, so be sure to have some cash on hand. This promises to be both an educational and visually stunning experience.

Questions 77-79 refer to the following excerpt from a meeting.

Before we finish today's meeting, I want to discuss a new benefits program available to all healthcare professionals. It's called "Health Trust," and it is a free service that all our nurses, doctors, and support staff can take advantage of. Through the service, you will have access to free therapy and support sessions and advice on any financial issues you might have. Please note that it is not mandatory to use this service. However, it is completely free.

Questions 83-85 refer to the following excerpt from a meeting.

The British Hospitality Conference released more details about its program, and I can tell it'll be very insightful. The event is set for next month. I know I made some of your projects due around that time, but an occasion like this is worth attending. If you want to adjust any of them, please let me know. Several head executives of major resort companies will even be giving talks, so we can definitely gather ideas and apply them to our own plans for opening our second resort next summer. On that note, Leland was on site for that construction project yesterday, so he'll be presenting a progress report about it right now.

Questions 86-88 refer to the following broadcast.

You're watching the Morning News on Channel 7. This morning's main news story is the sudden flooding of the entertainment district of the city. At approximately 5 A.M., the main water supply pipe running through the district suddenly burst, sending a huge volume of water gushing onto the streets. Maintenance workers are now trying to clear away the water and repair any damage. According to the mayor, the incident will not impact the parade that is scheduled to take place on Smith Street this afternoon. However, anyone attending the event should be prepared for some problems with parking, as several nearby roads will remain closed.

Questions 89-91 refer to the following speech.

Good afternoon. I'm Rebecca Ferrie, who manages operations here at Auto Electra's main factory. I organized this press conference because I have a very exciting announcement to share with the media. For the past two decades, our business has produced various automobiles, from compact cars to SUVs, at our facilities in North America. Today, we're pleased to announce that we will be opening five factories throughout Europe to break into foreign markets. All five will be open by the end of November, and this will create more than one thousand jobs at our company.

Questions 92-94 refer to the following telephone message.

Hello, this is Clive from Urban Sparkle. I'm just returning your call about our company's residential and corporate cleaning services. You mentioned that the previous company you hired to service your office space left bags of rubbish that you had to dispose of yourself. I'm pleased to inform you that we take them away. You can view a full list of all the services we offer on our Web page. If you're interested in booking our service, please get back to me on this number at your earliest convenience.

Questions 95-97 refer to the following tour information and weather forecast.

Come this way, and I'll now be starting our tour. I'm sure not everyone here is necessarily a football enthusiast, since lots of our guests just want to see what it's like to run a large, state-of-the-art sports facility like ours. I'll get to all that very soon. Luckily for us, the weather forecast today predicts mostly sunny skies with a small breeze, which is perfect for taking a relaxing stroll around the field. Just so you know, it rained yesterday, but the field is in great condition. And, a courtesy van will come to pick us up once the tour ends and take us back to the front gate.

Questions 98-100 refer to the following excerpt from a meeting and flow chart.

As you know, we recently hired a new Human Resources Director, Peter Hall, and he will serve as a member of the board. One thing Mr. Hall would like to change is the way in which HR handles employee complaints and disputes. We have experienced several issues with staff recently, and this affects the factory production rate of our washing machines and tumble dryers. To speed up the dispute resolution process, Mr. Hall no longer wants to spend time creating an initial report and will instead invite all affected individuals to a meeting immediately.
